

-- INSTRUCTIONS -----

(1) Create an assignment with a descriptive title under 28 letters, using the eduma command-line application.

(2) Type under 7 instructions (each under 173 letters) to completely finish the assignment. Instructions provided by any other means are unallowed.

(3) Condense instructions as a whole to under 861 letters.

(4) Retype instructions without any pronouns, infinitives, grammatical mistakes, custom abbreviations, or action verbs (excluding each first word; each must be an action verb).

(5) Type the purpose section in under 296 letters, starting with an infinitive, explaining the value of the assignment. Using other infinitives or active verbs is unallowed.

(6) Submit the document with the 'grade' button, revising and resubmitting until the lexile score is under 500.

-- PURPOSE -----

To teach instructors how to create assignments. Assignments are strictly graded and formatted, accomplishing their information delivery through minimalism and briefness.
